

## Arizona Canine Cognition Center & Laboratory for the Evolutionary Endocrinology of Primates

### POSITION SUMMARY

The Arizona Canine Cognition Center (PI Evan MacLean) and Laboratory for the Evolutionary Endocrinology of Primates (PI Stacey Tecot) seek two full-time Research Coordinators to assist with studies on the biology of human-animal interaction.

### DUTIES & RESPONSIBILITIES

The Research Coordinator will be responsible for overseeing and participating in all day-to-day operations of our research on dog-child interactions, including:

- Recruiting participants for campus-based studies with dogs and children
- Conducting behavioral studies involving social interactions between dogs and 8-10 year-old children
- Collecting biological samples from children and dogs
- Running neuroendocrine assays
- Behavioral data coding
- Managing research ethics protocols
- Supervising undergraduate research assistants
- Purchasing lab supplies and processing receipts
- Maintaining a clean and organized lab
- Other duties as assigned

### MINIMUM QUALIFICATIONS

- Bachelor's degree in a field appropriate to the area of assignment AND one year of laboratory activities experience; OR, five years of laboratory activities or related experience; OR, any equivalent combination of experience, training and/or education
- Previous coursework or experience in fields related to animal behavior, developmental psychology, neuroscience, or endocrinology

### PREFERRED QUALIFICATIONS

- Previous research experience working with human children, families and/or domestic dogs
- Laboratory skills (pipetting, immunoassays, sample purification).

### APPLICATION INSTRUCTIONS

To apply, please upload your CV and a cover letter describing your interest and qualifications for the position at:
