SOCIAL SCIENCES MEET ONE HEALTH PROFESSIONAL NETWORKS AND COMMUNITIES OF PRACTICE AT THE CROSSROADS OF HEALTH, THE ENVIRONMENT, AND SOCIETY

GEO HEALTH COMMUNITY OF PRACTICE: USING EARTH OBSERVATION DATA TO INFORM HEALTH DECISION-MAKING

By Dr Helena Chapman
Medical Doctor & Epidemiologist, NASA, United States

Earth observation data offer innovative, real-time information for researchers to gain insight on how emerging environmental risks affect human and animal health. In her presentation, Helena Chapman will highlight the GEO Health Community of Practice, as a global network of scientists, researchers, and practitioners who use Earth observation data to inform health decision-making activities.

GEO HEALTH

Date
Tuesday, February 22

11:00 am - 12:00 pm EST (Miami)
5:00 pm - 6:00 pm CET (Paris)
11:00 pm - 12:00 am ICT (Bangkok)

THE ADDED VALUE OF SOCIAL SCIENCES FOR ONE HEALTH NETWORK COORDINATION: GREASE EXPERIENCE

By Dr Aurélie Binot
Anthropologist and Agronomist, CIRAD, France

Going back on the stakes at play at the time of GREASE's beginning (Management of Emerging Risks in Southeast Asia) where it was really challenging, in the context of 2012, to nominate a researcher in social sciences for the network's set up and coordination, Dr Binot will also highlight the "success factors" that contributed to the general accomplishment of One Healthnetwork activities.

GREASE

TRANSDISCIPLINARITY IN THE BELGIUM ONE HEALTH NETWORK

By Dr Hans Keune
Social scientist, University of Antwerp & Belgian Biodiversity Platform, Belgium

Dr Keune will present a brief introduction and history of BEOH as well as its transdisciplinary ambitions.

"Rather embrace complexity in analytical deliberative approaches with all of its challenges, than (re-)creating reductionist Islands which often only lead to dialogue of the deaf."
